

Universal Reading Screening Survey Results

The September 2011 Wisconsin RtI Center survey asked schools to identify universal reading screening tools and practices for each grade level including how frequently students are screened each year, what screeners are used, and the year the school started screening for reading. For schools that screen students for reading, we also asked permission to post on our web site the name of the school and school contact person to foster peer-to-peer sharing among Wisconsin schools.

Two hundred and fifty-two Wisconsin schools completed the Universal Reading Screening Survey: seven schools were at the early childhood level, 125 were elementary schools, 43 were middle schools, 18 were high schools, and 59 schools identified themselves as multi-level (e.g. K-8, 6-12). Below, by grade bands, are the most commonly identified tools used for screening in the area of reading. *Note that the Wisconsin RtI Center is reporting these data for the benefit of Wisconsin schools and does not endorse any specific reading screening tools.*

K4

- AIMSWeb Test of Early Literacy
- BRIGANCE Early Childhood Screens
- Developmental Indicators for the Assessment of Learning (DIAL)
- Houghton Mifflin Pre-K Benchmark
- Individual Growth and Development Indicators (IGDI)
- Phonological Awareness Literacy Screening (PALS)
- School/district-created screener
- STAR Early Literacy

- Measures of Academic Progress (MAP)
- PLAN [ACT]
- PSAT
- Scholastic Reading Inventory (SRI)
- STAR Reading
- WKCE-CRT

Identified Tools for Universal Reading Screening

In response to our September 2011 Universal Screening for Reading Survey, Wisconsin schools identified the following assessments as being part of their universal reading screening processes. *Note that this is not intended to be a comprehensive listing of available reading assessments. Also note that the Wisconsin RtI Center is reporting this information for the benefit of Wisconsin schools and does not endorse any specific assessments.*

Wisconsin School Contacts

This Excel spreadsheet contains the names of Wisconsin schools and contacts who have given their permission to share their universal reading screener experiences with interested individuals from other Wisconsin schools. The spreadsheet is divided into grade level bands and identifies the assessment tools used at each school.

Selecting Tools for Screening

The Wisconsin Rtl Center and Wisconsin Department of Public Instruction have co- created a set of guiding questions to help schools evaluate the numerous screening, interventions, and progress monitoring resources. That document can be found at:

http://www.wisconsinrticenter.org/assets/files/Selecting_Tools_and_Interventions.docx.
