

# PBIS Networking

**Audience:** Administrators with at least one Tier 1 and one Tier 2 team member

With an aim to improve and sustain implementation, PBIS Networking provides professional development for Positive Behavioral Interventions and Supports (PBIS) Tier 1 and Tier 2 coaches (internal and external), coordinators, team members, and administrators. Participants connect with other practitioners, network around successes and barriers to implementation, and refine their skills in supporting action plans, teams, and staff. PBIS Networking meets three times throughout the school year repeated at two convenient locations. Each session will make connections to key features in Wisconsin's Framework for Equitable Multi-Level Systems of Support and the Tiered Fidelity Inventory (TFI) team assessment.

## North

## South
